Key Points

*University life is very busy.
*Sport facilities should be more accessible

Problems

*We could not find a partner at the same level.
*Gyms and sports fields are too crowded.

THE ORIGIN STORY

Bil-Fit

The solution is

Mesmerineers

TOURNAMENTS

STUDENT

Players can see locations, dates and previous match scores of tournaments.

Student can join tournaments organized by admins.

The information about the upcoming matches will be available on the roster page.

TOURNAMENTS

ADMIN

- Admin can create tournaments and special events for students to apply
- Admins will upload and control applications forms for potential competitors.
- Admin can notify students who applied the event about changes like matches’ date etc.
- Tournaments can be canceled by admin very easily.

Gamification of Sports

Students will be able to find a sport partner.
Even if you are a beginner or an expert

A player who wants to play tennis can easily reserve a tennis court on the reservation page.

Play four times in a row to catch fire and show everyone your streak!
only if you want others can see

SKILL BASED MATCHMAKING

As we know, not all matches are fair.

Skills are determined on each **separate** sport.

That’s why we’ll use an **algorithm** that matches users by their **skill level**.

All of the **stats** of players will be visible on their **profile**!

TECHNICAL STRUCTURE

Desktop App

2 user interface (Admin, Student)

Seperated window

Connected to cloud database

Stores hashed passwords

- *You are safe!*

Tournament Scheduling Algorithm

User-Based Recommendation Algorithm
